The related China natural gas pipeline and underground storages project databases provide following data:

- Project name
- Province
- Prefecture
- Project status
- Production start year
- Underground storage group
- Related gas main lines
- Current storage size
- Planned storage size growth in short term
- Planned storage size growth in long term
- Shareholding situation
- Primary stakeholder
- Secondary stakeholder
- Company name
- Company established time
- Company status
- Company ownership type
- Company registered capital
- Company legal representative
- Company shareholders namelist
- Company shareholders investment
- Company contact people
- Company contact people's gender
- Company contact people's title
- Company phone number
- Company address
